Probably the best dlc for the game besides the endless challenge.. repetitive GaMelplay. Superior to the sequel.. Its free. No need to say anything ;). basically its a time thing for killing captains the faster you either kill them all or brand them you get placed on a leaderboard . its free dlc either way so download it. Just a challenge.

Its free how can you complain?. Free of charge so hey why not!. This is pretty nice, but I think it's pre-order exclusive.. Not recommend can't play as Spice Girls
. Great game! Not bad untolden story about middle earth. But still there is so fusing many bugs))) Cool gameplay and not bad story mod. it's free, don't complain ;)
